

The largest learning event in history

During Computer Science Education Week,
December 7-13, 2015

The Hour
of Code
is coming,
again!

Computer science is a foundation for every student. Join us to help millions of new learners start with one Hour of Code. **Sign up at hourofcode.com**

What is the Hour of Code?

A one-hour activity. Students of all ages can choose from a variety of self-guided tutorials, for kindergarten and up. Tutorials work on any modern browser, tablet, smartphone, *or even with no computer at all.*

Code.org's own tutorials feature Disney's *Frozen*, *Scrat* from *Ice Age*, *Angry Birds*, and *Plants vs. Zombies*. **New tutorials are coming to kick off the 2015 Hour of Code!**

A spark to keep learning computer science. Once students see what they create right before their eyes, they're empowered to keep going.

No experience needed from teachers and students.

A global movement with more than 100 million learners in 180 countries. Anyone, anywhere can organize an Hour of Code event. Tutorials are available in 40 languages.

Why computer science?

Every 21st-century student should have the opportunity to take part in creating technology that's changing our world. The basics help nurture creativity and problem-solving skills, and prepare students for *any* future career. But most schools still don't teach computer science.

"I challenge girls in every single country to learn one Hour of Code"

— Malala Yousafzai
Nobel Peace Prize winner

Get involved

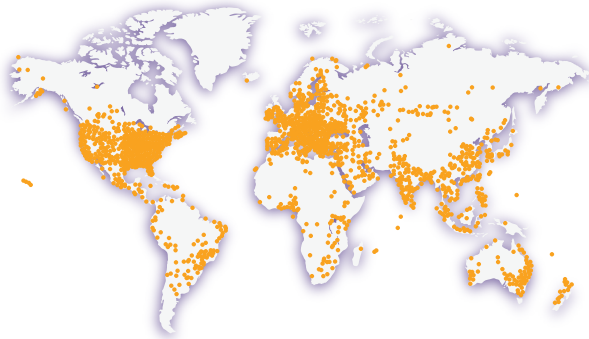

Host your own Hour of Code.
Spread the word with
#HourOfCode!

The incredible Hour of Code movement:

1 in 3 students in US schools have tried an Hour of Code.

Over 100M students have participated at 77,000 events worldwide.

More girls have tried computer science than in the last 70 years.

Celebrities, tech visionaries, and even the President

- Every Apple Store in the world hosted an Hour of Code.
- President Obama wrote a line of code with students at the White House.
- The movement has been featured on Google, YouTube, Yahoo!, Bing and Disney homepages.
- Celebrities Ashton Kutcher and Jessica Alba and tech leaders Sheryl Sandberg, Bill Gates and Jack Dorsey talked with classrooms in live video chats.

Together, we can fix the diversity gap in computer science

By exposing both girls and boys to fundamental computing concepts on a level playing field, starting with the earliest learners, we can inspire today's generation of students to build technology.

Almost half of all Hour of Code participants are girls. 35% of participants are black or Hispanic*

VS

On average, computer science classes are only 18% female and 8% black or Hispanic

"I have **never, ever** seen my students so excited about learning."

— Michael Clark
Teacher

Over 300 partners have come together to support this grassroots campaign, including DonorsChoose.org, The College Board, Microsoft, Google, Salesforce, The Walt Disney Company, Target, Teach for America, Khan Academy and more.

Prizes for EVERY organizer

- Every Hour of Code organizer will receive a thank you gift.
- One lucky school in every US state (+ Washington, D.C.) will win \$10,000 worth of technology.

More prizes coming soon!

Mark your calendars for December 7-13, 2015!
