

The largest learning event in history

December 8-14, 2014

The Hour of Code is coming, again!

Last year, 15 million pupils tried an Hour of Code in one week. Join school children all over the world for an Hour of Code, December 8-14. **We're aiming for 100 million students worldwide to do an Hour of Code by the end of 2014!**

What is the Hour of Code?

A one-hour activity. Pupils of all ages can choose from a variety of self-guided tutorials, from kindergarten up. Tutorials work on any modern browser, tablet, smartphone, or *even with no computer at all*. Uk.code.org's own tutorial features Angry Birds, Plants vs. Zombies and video lectures from Mark Zuckerberg and Bill Gates.

No experience needed from teachers or pupils.

A spark to keep learning computer science.

Once pupils see what they create right before their eyes, they're empowered to keep learning.

A global movement reaching tens of millions of pupils in 170+ countries.

Anyone, anywhere can organize an Hour of Code event. Tutorials are available in over 30 languages.

Why computer science?

Every 21st-century pupil should have the opportunity to learn computer science. The basics help nurture creativity and problem-solving skills, and prepare students for any future career.

Get involved

Ask your local school to offer an Hour of Code or host your own event. Help spread the word with #HourOfCode!

"I have **never, ever** seen my students so excited about learning."
—Michael Clark, Teacher

"I knew this was a **once-in-a-life-time** chance"
—Mariana Alzate, 5th grader

Incredible stats from last year's Hour of Code. In one week alone:

It was the fastest to reach 15 million users.

The Hour of Code: 5 days

15 million students in 170 countries learned an Hour of Code.

More girls tried computer science than in the last 70 years.

Over 10 million girls in 2013

Together, we can fix the diversity gap in tech

Technology and software historically suffer from an extreme lack of diversity. The Hour of Code is a first step in fixing this, showing all students what computer science is all about. Last year almost half of all Hour of Code participants were girls, 8% were black and 14% Hispanic. Computer science students on average are only 18% female, 3% black and 8% Hispanic.

Join us to propel unprecedented momentum—from CEOs to celebrities to the American President

President Obama, Shakira and Ashton Kutcher all kicked off last year's Hour of Code with video messages. The movement was featured on homepages of Google, YouTube, Yahoo!, MSN, Disney and Bing. Every Apple and Microsoft store in the United States hosted an Hour of Code workshop. Tech titans Bill Gates, Jack Dorsey, Susan Wojcicki and Gabe Newell all connected with classrooms in live video chats.

Over 100 partners have come together to support this grassroots campaign, including the BBC, Microsoft, Amazon, Apple, Khan Academy and more.

"Every single day yielded the same results—**100% engagement.**"
—Nina Nichols Peery, Teacher

Prizes for EVERY organizer—and win a chat with a special guest speaker

- Every Hour of Code organizer will receive Dropbox space or Skype credit as a thank you for bringing it to students.
- 20 lucky classrooms will win video chats with special guests.

Mark your calendars now for December 8–14, 2014!
